CSA Updates and Information

Welcome to week 2 of your Summer CSA! We hope you enjoyed your fresh herbs and veggies last week. If this is your first season with us, you will see that each week's harvest features a different variety and unique bounty. This week is all about the roots...carrots, beets, garlic, and more! Summer staple cucumbers are making an appearance in all share sizes this week, too.

Wondering what to make with the veggies in your share? Each week, we provide three recipes using some of the veggies in your share. You can find them on page 2 of this digital newsletter. We hope they inspire you to explore new heights in farm-to-table cooking!

As a reminder, if you receive a Medium or Large share, please bring your box back each week to be sanitized and reused. If you receive a Small share, please recycle or dispose of your paper bag at home.

Thanks to each of you for arriving during your designated pick-up times. As a reminder, weekly CSA pick-up takes place at Bittersweet Farms in Whitehouse from 1:00 p.m. to 3:00 p.m. on your chosen day. If for some reason you cannot pick-up your box during these designated hours, please contact us as soon as possible to make other arrangements.

If any questions arise, feel free to be in touch with Lindsay Nagy, our Retail Coordinator, at lnagy@bittersweetfarms.org or 419-875-6986 ext. 1235.

Gardens Team Highlights

As always, this week's share was a team effort in Gardens! Harvesting and preparing the carrots alone was a partnership between SEVEN participants! Bob and Phil harvested, Charlie, Conor, and Phil trimmed the tops, Gino (pictured on p.2 at left) washed them, and Mike was the final "quality control" check. Partnership is one of the four pillars of Bittersweet's philosophy, and we love to see the participants working in partnership not only with staff, but also with one another!

Several others contributed to this week's shares as well! Keerston harvested radishes, removed the tops, and harvested tomatoes. Darin (pictured at right, below) worked with Robin to harvest and bundle basil for our Medium and Large shares. Matt (pictured at right, above) harvested green peppers for the Medium and Large shares and worked with Nicky to sort tomatoes for the Larges. Finally, Phil assisted with sanitizing harvest crates, one of his favorite jobs!

If you can believe it, this is only a small glimpse into what happens in Gardens on a given week, and there are even more team members who contribute! Each of these names and faces is a life that is positively impacted by your decision to be a Bittersweet CSA member. Thank you.

The mission of Bittersweet, Inc. is to positively impact the lives of individuals with autism and those whose lives they touch.

Spicy Garlic Dill Refrigerator Pickles

Ingredients

2 pint-sized jars with lids
2 cucumbers, scrubbed & sliced into thick coins
8 cloves of garlic, peeled & smashed, divided
2 handfuls of fresh dill, to taste, divided
1 tbsp coriander seeds, divided
1 tbsp peppercorn seeds, divided
1/2-1 tsp crushed red pepper flakes, to taste, divided
1 tbsp sugar
1 tbsp salt
2/3 cup vinegar
1 cup water

Instructions

1. Place four cloves of smashed garlic, a large handful of fresh dill, 1 1/2 teaspoons of coriander seeds, 1 1/2 teaspoons of whole peppercorns, and 1/4-1/2 teaspoon of crushed red pepper flakes, to taste, into each jar.
2. In a large bowl, combine the sugar, kosher salt, and white vinegar together. Whisk vigorously until the sugar and salt have completely dissolved. Add the water to the mixture and mix well.
3. In the two clean mason jars, tightly pack the cucumber coins into each jar. Once full, pour the brine mixture evenly over the cucumbers. Tap the jars on the counter to release any air bubbles and top off the jar with extra water if any cucumbers are exposed.
4. Place the lids on the jars and screw on the rings until they are tight. Leave the jars in the fridge for 24 hours before tasting. The pickles last up to one month refrigerated.
