Gardens Team Highlights

This week, we're highlighting Mike (pictured at right, above) and Cece (pictured at right, below) and their contributions to the team! Mike has been on the Gardens Team since the early days of the CSA program. In fact, Mike is one of our original residents, so he has been gardening at Bittersweet since the mid-1980's! As a veteran member of the team, he is skilled in all aspects of production--seeding, transplanting, watering, weeding, harvesting, and cleaning and packaging produce! He is also a valued member of our Groundskeeping Team and loves assisting with mowing and weedwhacking around the Gardens area and the entire Farm. This week, Mike has been watering, weeding, and providing customer service and we are so grateful!

Compared to Mike, Cece is a newer member of the team, having worked in Gardens for four years now. However, she has made a huge impact in her time in the program! She is truly one of the hardest working women we know. This week alone she has weeded, watered, sorted and organized our cooler, AND harvested peas, lima beans, and cucumbers! When she's not working in Gardens, you can catch Cece caring for our animal friends in the Barn or creating ceramic masterpieces in Creative Arts. We are so glad she's part of our Farm family!

The mission of Bittersweet, Inc. is to positively impact the lives of individuals with autism and those whose lives they touch.
